Registrations close 10<sup>th</sup> Jan 2022

## For the grown ups.....

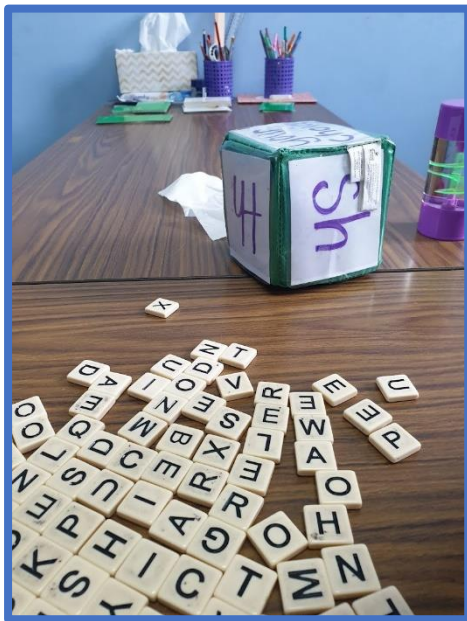

*Learning to read is like building a house. You need a solid foundation before you build the walls! Our Fun with Phonics holiday program involves going back to basics, making sure that block of cement is nice and strong. In this program we use fun, games and a multi-sensory approach to learn about syllables, rhyming, blending and breaking down words into their individual sounds. Rest assured your child will be well on the way to becoming a super reader!*

***This workshop is ideal for year kids starting school or in kindergarten, year 1 and 2.***

## The Workshops

The Fun With Phonics workshop runs over 5 mornings. Each 1.5 hour session will consist of a number of phonological and phonemic awareness activities designed to help your child understand how words work. Like all the programs at Flying Colours, the Fun With Phonics program will be full of multi-sensory fun and games to enhance understanding and enjoyment for learning.

At Flying Colours our teachers know how to create a fun, inclusive, and engaging learning environment.
